Everco	Qualis	Wells Manufacturing
Falcon Steering	Rare Parts	Westar Industries
Forecast Products	Rayloc (NAPA)	Winhere Automotive

***....have in common?***

They rely on Vertical Development to manage their application, product and pricing data for print and electronic formats including AAIA ACES and Legacy, Activant, NAPA PartsPro, PIES, Wrenthead and more. VDI's systems are ideally suited to all sizes of companies. By consolidating part numbers from multiple spreadsheets into a single user interface, they enable companies to map to AAIA standards, generate catalogs in print and on CD, and create online lookup systems, easily and economically. Solutions in place range from small 32-page catalogs to 3,000-page mega-catalogs.

To find out how Vertical Development can help your company grow, call or email Ron Garand: 1-847-609-9540; [rgarand@verticaldev.com](mailto:rgarand@verticaldev.com).
